

GROUT OFF

Product Description

Grout Off is a product designed for a gentle yet effective grout, soil, dirt and light cementous contamination remover.

Applications

Apply to freshly grouted tiles on walls, floors and outdoor areas.

Use in contaminated areas on walls and floors in shower recesses, bathrooms, toilet floors and where water is left to dry.

IT IS SAFE TO USE IN AREAS WHERE BLEACH AND CHLORINE ARE USED OR PRESENT.

Physical Properties

A green foaming acidic liquid with the characteristic odour of a light acid. Gout Off is not viscous and is free flowing. It has a low acidic pH <3

Chemical Properties

Grout Off is a sulfamic acid base with surfactants and organic solvents with a pH of <3

Environment

In its diluted ready to use form it is relatively safe to use but care must be taken to not let the concentrate enter water ways or the environment.

Directions

Before applying Grout Off conduct a small test area to qualify the results with no harm to the substrate. Where PPE. Dilute 1 to 4 with water up to 1 to 9 parts water. Apply solution with mop, spray or splash, agitate with brush or broom, let dwell for a short time then remove. Repeat if needed.

Coverage

Depending on the dilution you should be able to cover 100m2.

Cautions

May cause eye and skin damage. Do not swallow.
