

SEALER REMOVER

Product Description

Sealer Remover from ECOTotal is fast acting, user friendly, low-odour and bio-degradable. A Powerful solvent base.

Applications

Remove topical sealers from various surfaces. Around pools and pavement. Tiles, ceramics, glass, metal and plastics. It is also an effective light graffiti remover and tyre marks from hard surfaces.

Physical Properties

An opaque yellow/red, slightly viscous liquid with an orange odour. Non fuming and contains

Chemical Properties

Contains benzyl alcohol, ethanol, and limonene. No phosphates or VOCs. Non-dangerous and Non-corrosive product.

Environment

Do not allow to enter water ways. Will not Bioaccumulate and is bio degradable.

Directions:

Apply the Sealer Remover directly to a dry surface with a brush, sponge or low-pressure spray.

Allow the product to penetrate the sealant for a few minutes.

Use a scraper or pressure spray to remove the softened sealant, remembering that the high pressure will make air-born particles.

Rinse the surface thoroughly with water to remove any residue.

Coverage

Coverage of sealer removal varies between 50 to 80m² per 20lt. This is determined by the deterioration of the sealer and the porosity of the substrate.

Precautions:

Use in a well-ventilated area.

Avoid contact with eyes and skin. In case of contact, rinse thoroughly with water.

Keep out of reach of children.

Store in a cool, dry place away from direct sunlight and heat sources.

Do not mix with other chemicals. Sealer Remover is best applied out of direct sunlight where possible.

To get best results avoid application to hot surfaces.

Packaging:

Available in 20lt containers
